PROFESSIONAL SUMMARY

Frontend Web Developer with hands-on internship experience developing responsive web applications and AI-integrated user interfaces. Proficient in React.js, modern JavaScript (ES6+), HTML5, and responsive CSS (Flexbox/Grid). Experienced in component-driven UI architecture, client-side state management, and REST API integration to deliver performant, user-centric web experiences.

TECHNICAL SKILLS

Frontend Core: JavaScript (ES6+), React.js, HTML5, CSS3, Flexbox, CSS Grid
State & Architecture: React Hooks, Component-Driven Design, Mobile-First Responsive Design, SPA Architecture
Databases & Backend: MySQL, SQL Server, Relational Schema Design, REST API Integration
Developer Tools & Workflow: Git, GitHub, VS Code, Chrome DevTools, NPM, Agile Workflow

INTERNSHIP EXPERIENCE

AI Web Development Intern **Oct 2026 â€“ Oct 2026**
InAmigos Foundation | Remote

- Engineered responsive, dynamic web components using HTML5, CSS3, JavaScript (ES6+), and modern frontend practices, optimizing for mobile-first user experience.
- Integrated AI-driven features and APIs into frontend interfaces, streamlining workflows and enhancing real-time user interactivity.
- Conducted cross-browser UI testing, debugging, and frontend performance optimizations, earning an official completion certification (Reg No: U85300CT2020NPL010641).

TECHNICAL PROJECTS

Interactive Portfolio & Appointment Scheduling Web App **React.js, JavaScript, CSS3**
Live Demo: dinesh-ch3.github.io/portfolio-site | GitHub: github.com/dinesh-ch3/portfolio-site

- Architected a responsive, mobile-first personal portfolio utilizing React.js component-driven design principles for optimal modularity and code reuse.
- Implemented an interactive appointment and booking workflow with custom form state management, input validation, and asynchronous feedback handling.
- Leveraged modern CSS Grid and Flexbox techniques, scoring 95+ on Google Lighthouse audits across performance, accessibility, and SEO.

Hospital Records & Patient Management Interface **React.js, SQL (MySQL), CSS3**
GitHub: github.com/dinesh-ch3/hospital-management-ui

- Engineered an administrative dashboard to manage 10,000+ patient records with dynamic client-side pagination, multi-criteria filtering, and live search.
- Integrated structured relational SQL queries to track patient admissions, departmental bed occupancy, and visit timelines with low query latency.
- Constructed reusable table, modal, and alert components with zero external CSS libraries, reducing runtime stylesheet overhead.

Device Specification Catalog & Comparison Web App **React.js, JavaScript (ES6+), CSS3**
GitHub: github.com/dinesh-ch3/phone-catalog-app

- Developed a product catalog web application featuring dynamic search, price range filtering, and side-by-side technical comparison across multiple device models.
- Implemented debounced search and memoized filter operations using React Hooks (`useMemo`, `useCallback`) to preserve 60 FPS UI responsiveness.
- Designed adaptive UI cards, dark/light theme switching, and touch-friendly mobile layouts ensuring cross-device consistency.

EDUCATION

Master of Computer Applications (MCA) **Aug 2026 â€“ Present (Expected 2028)**
KGRL College, Bhimavaram | Flexible Schedule • Eligible for Immediate Full-Time Employment (40 hrs/week)

Bachelor of Science (B.Sc.) in Computer Science **Aug 2021 â€“ Nov 2024**
BV Raju College, Bhimavaram (Adikavi Nannaya University)
Relevant Coursework: Data Structures & Algorithms, Web Technologies, Database Management Systems, Object-Oriented Programming

CERTIFICATIONS

- **AI Web Development Internship Certificate** â€" InAmigos Foundation (Reg No: U85300CT2020NPL010641, Oct 2026)
- **Data & Web Development Foundations** â€" Udemy (Hands-on training in JavaScript, SQL, Python, Git version control, and web development)
